KLORMAN WATERTECH POOL FILTERS

The sophistication of modern pools & spas is placing even greater pressures on pumps & filters.

The Klorman Watertech filters produce crystal clear water using fine sand or glass media as the filter medium.

The unique internal design raises the laterals off the bottom of the filter base, this design allows for effective and more efficient filtration.

The low resistance created by the engineered internals means backwashing the filter takes less time & saves valuable water.

Designed & manufactured with quality & easy to use components, make for simple cleaning & media changing.

The 28 inch dual layered fibreglass filter gives you superior commercial strength

High quality components such as stainless steel fittings & quick release clamp bands, for 28" filter all help reduce ongoing maintenance & make operation a breeze.

Klorman Watertech filters are perfect to combine with glass filter media for the cleanest, healthiest & sparkling pool water.

Klorman Watertech filters are available in two sizes, complete with multi-port valve, pressure gauge, barrel unions & backwash sight glass. Each filter is covered by a limited 10 year warranty on the tank & a 12 month warranty on the valve & internals.

MULTI PORT VALVE

40mm MPV

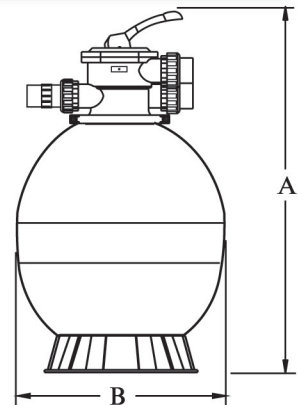

50mm MPV

| Model | Height (A) | Diam. (B) | Flow rate (LPM) |
|------------|------------|-------------|-----------------|
| WTFG100-PK | 960mm | 630mm (25") | 270 |
| WTFG150-PK | 1030mm | 700mm (28") | 370 |

| | WTFG100-F | WTFG150-F |
|---------------------------|-----------|-----------|
| Sand | 160Kg | 200Kg |
| Pool Magic Glass (Coarse) | 3 x 15Kg | 4 x 15Kg |
| Pool Magic Glass (Fine) | 6 x 15Kg | 8 x 15kg |

Note: Always add coarse glass media first
